www.theasianbanker.com

As we step into the 26th year of The Asian Banker Summit, the financial services sector continues to evolve at an unprecedented pace. This evolution is driven by critical factors such as rising global interconnectedness, rapid technological advancements, and the increasing importance of sustainability. Jakarta, Indonesia, one of the largest economies in Asia with its vibrant energy and dynamic growth, serves as the perfect backdrop for our 2025 summit, where tradition meets innovation.

In this era of digital transformation, we are witnessing the convergence of multiple groundbreaking trends. Quantum computing promises to revolutionise data processing and risk management, providing unprecedented computational power. Decentralised finance (DeFi) and artificial intelligence (AI) are pushing the boundaries of what is possible in financial services. The shift towards sustainable finance is becoming more pronounced, with ESG criteria now integral to core operations. Digitalisation is accelerating, enhancing cash management, liquidity solutions, and supply chain financing. Consumers demand faster, transparent, and trustworthy cross-border payments, driving continuous innovation.

Exploring financial innovations and trends:

The Asian Banker Summit remains a beacon for professionals navigating the dynamic financial landscape. The 2025 edition will provide insights into emerging technologies and innovations shaping the future of finance.

Inspiring dialogues and collaboration:

Entering its 26th year, the Summit is renowned for uniting top minds in finance. Join us to foster an environment where leaders and innovators converge to inspire, challenge, and shape the future, bringing diverse perspectives to generate actionable insights.

Immerse yourself in knowledge in the heart of Indonesia:

Hosting the event in Jakarta, Indonesia's bustling capital and economic powerhouse, highlights its significance. The city's vibrant economy and rapid growth offer a fertile ground for exploring the latest financial trends and fostering meaningful connections.

One Summit, Multiple Specialised Events:

Financial Technology Innovation Conference

Join us at the 2025 Financial Technology Innovation Conference. Explore digital economies, emerging tech, and strategies for the future of finance. Take home key insights and business-transforming practices. Discuss the digital-first era and industry strategies for the years ahead.

Transaction Finance Re-invented Conference

Connect with global experts, banks, regulators, and tech innovators. Discover trends and best practices in trade finance, banking, payments, and liquidity management in the digital era. Stay at the forefront of industry evolution.

Heads of Transaction Finance Roundtable

The Heads of Transaction Finance Roundtable will delve into how collaboration and innovation are enabled by the digital transformation of corporate treasury, cash management and payment services, leveraging real-time data, automation, AI and enhanced system architecture. The roundtable discussion will focus on strategies to navigate these challenges and unlock the full potential of transaction banking and treasury in the digital age.

Heads of Technology Roundtable

This roundtable discussion delves into how scalable core technology and infrastructure can be the cornerstone for banks to achieve their future digital transformation goals. We will explore how emerging technologies like AI, Open Banking APIs, and cloud computing are transforming business banking in APAC. Discover strategies to accelerate innovation to build a future-proof digital banking capability that is resilient, agile, and can unlock new growth opportunities.

Heads of Risk and Compliance Roundtable

In a changing financial landscape, risk management is crucial. The Heads of Risk Dialogue 2025 gathers decision-makers to explore evolving risk and resilience strategies in today's uncertain world.

THE ASIAN BANKER SUMMIT 2025

21–22 May 2025 | Jakarta, Indonesia

WHO SHOULD ATTEND?

The Asian Banker Summit 2025 is an exciting, all-inclusive annual gathering which is not about traditional banks, i and asset management players alone, but embraces all the new players in a whole array of supply chain and data technologies that are disintermediating the role of the traditional players and creating new business models, the im which we do not yet understand.

Decision makers and leaders at every level:

- Senior government officials and regulators in charge of financial development, economic transformation and re cooperation
